## **Chaperonze Treatment Results**

### **Ms. Jane**

This is a summary of results of patient, Ms. Jane, over a 30-month period.

Age: 50

Sex: Female

Clinical conditions: Perimenopausal, Migraines, Weight Gain, Insomnia

### **Response to treatment:**

Ms. Jane had a tremendous response to Chaperonze. Her migraines disappeared and, even after 2 years, have not returned. Her transition through menopause has been without incident and a significant increase in libido has been noticed.

Her energy level has increased and she has lost 14 pounds and feels very healthy. She now sleeps well through the night. Her skin looks healthy and she has noticed a dramatic increase in her ability to socialize without it "setting her back".

### **Testimonial :**

"I can't believe how good I feel since I began using Chaperonze. I have not felt or looked this good since my thirties!"
